Fun at Pre-Kindy-3 year old program.

We have been having fun at Pre Kindy getting to know each other and becoming familiar with the Pre Kindy routine.

Each week we investigate a new subject. So far we have looked at farm and wild animals, dinosaurs, transport, underwater life, teddy bears, butterflies and outer space to name a few. During our investigations we are developing skills such as holding a pencil and scissors correctly, counting and sorting as well as recognising our names. We also enjoy singing favourite songs and listening to a story.

We love coming to Pre Kindy!
