

My Perfect Place

Room 13

My perfect place

My perfect place is my dance studio. The dance studio is my perfect place because it is a lot of fun. It's a great place to socialise and you get to learn how to dance. It's great fun because you meet lots of new people and make friends. Sometimes you make up dances to a good song or maybe play a game at the end of the lesson. My dance studio is my perfect place because of all those reasons.

My Perfect Place

My perfect place is in the living room with my three cats named Hazel, Sky and Tabz.

I like watching my favourite shows while I get to spend some time with my cats.

They are each very playful, cute and are very fluffy.

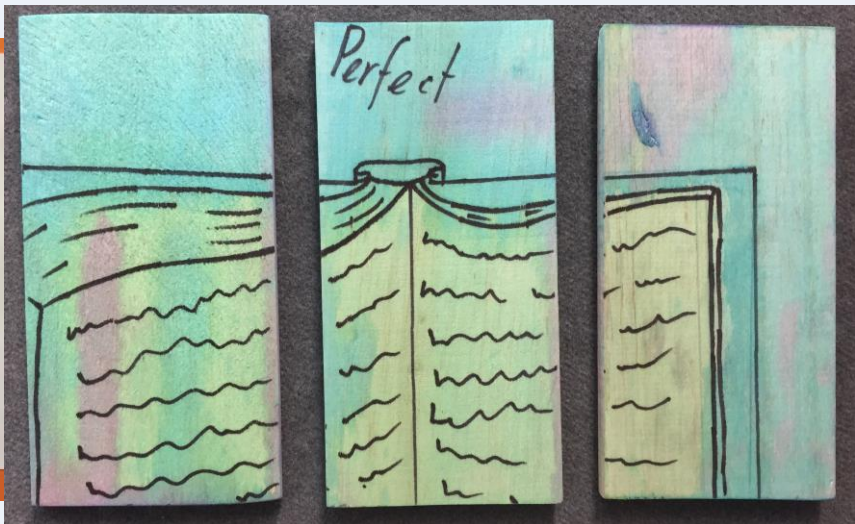

My perfect place

I love watching the sunset on the front veranda. It is very pretty and great. I would love to watch it every day. I love it when my mum and I watch the sunset together.

PERFECT

MY PERFECT PLACE IS READING A BOOK BECAUSE YOU DON'T HAVE TO DO MUCH AND YOU CAN RELAX.

Perfect Place

My perfect place is in the back garden up in one of the birch trees. In the back garden there are three birch trees in a line. I like sitting up in the one to the left because it is comfortable and I can see all around the back yard. My other perfect place is on the computer because it is warm inside and I can listen to my favourite songs and play minecraft.
