

Science, Technology, Engineering & Maths.

STEM

These are a major focus for our modern students, and each of these subjects is integrated into many facets of our daily learning here at East Manjimup.

These Room 6 Year 3 students have been challenging their brains to construct a model of the Sydney Harbour Bridge in readiness for a Book Week display in the library next week. This has certainly challenged them to consider and solve problems across all the areas of STEM, and they have been having heaps of fun throughout the process.

We look forward to seeing an Australian icon on show.
