

## Things we do at Kindy part one

We have settled in well to term one at Kindy, learning how to sit and listen on the mat, making new friends and having fun getting to know each other and the routines of the day.

Here are some photos of our term so far:

Millie is painting with water.

Max has been threading.

Mason is enjoying painting outside.

Using our fine motor skills to move magnetic balls along a path.

Jared and Kaisho are making a tactile picture.

Faith is using tweezers to place pom poms.

Using tweezers to pick up tiny objects helps to develop our fine motor skills.

We are having fun at Kindy!
