

Avicii

Tim Bergling (or Avicii) is a Sweden Musician. He is also a DJ, remixer, and a record producer.

Tim Bergling was born on 8th of September 1989 in Stockholm, Sweden, to Klas Bergling and actress Anki Liden. In May 2007, Avicii signed on with the Dejffitts Play Label. Then in 2010, Bergling released the hit song "Seek Bromance" which reached the top 20 in several countries including Belgium, France, the Netherland, United Kingdom, and Sweden.

Bergling explained that the name Avicii means 'the Lowest level of Buddhist hell' (Avici) and he chose the moniker because his real name was really used upon creating his MySpace page.

I like Avicii because his songs are really nice to listen to. My two favourite songs are 'Wake Me Up' and 'Hey Brother'. I'm slowly getting into Twenty-one Pilots but Avicii will always be in my playlist!
