Things we do part 1

Here is a small collection of activities Kindy 2 have been busy doing this term:

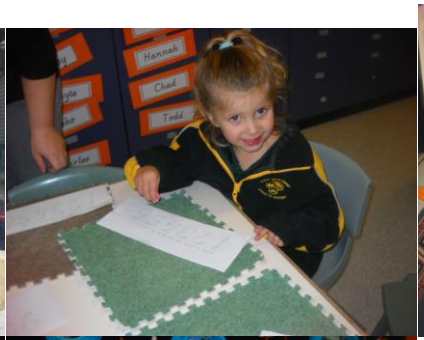
We have been measuring items to see if they are long or short. Bella put all the magnetic sticks together and made a VERY long trail that went around the room.

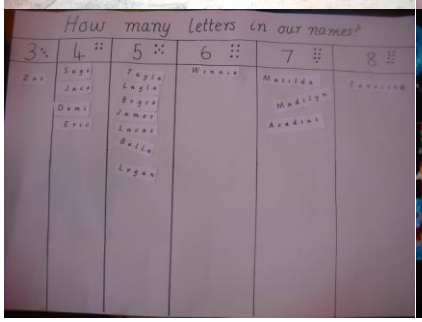
Is Madilyn longer or shorter than her magnetic sticks?

We had fun using snakes to measure long and short. We had to break them up into pieces and put them in order from longest to shortest. Of course we got to EAT our snake at the end!

Kindy 2 also have fun learning through play, look at some of the things we have accomplished:

Sorting, measuring, counting, building, letter recognition and counting the letters in our names!





How many letters in our names?
